

Pain Specialists of America

Dear Valued Patient,

We are writing to inform you that Dr. Jason Lo has moved to our Bastrop office effective December 5th. After an extensive search for an experienced and compassionate pain physician to join us in Waco, we are excited to introduce Dr. Benjamin Fronk to the PSA team!

Dr. Benjamin Fronk is Double Board-Certified in Anesthesiology and Pain Management. Originally from Houston, he completed medical school at The University of Texas Medical Branch in Galveston, Texas in June 2010. He continued his education at UTMB to obtain his residency training in anesthesiology and fellowship training in pain management. During his residency, Dr. Fronk was recognized as Outstanding Resident and received Employee of the Quarter award for innovation and improvement, and in the final year was honored with the Outstanding Overall Resident Award.

With over twelve years of interventional pain management and clinical research experience, Dr. Fronk offers a patient-centric, multidisciplinary approach with a goal of maximized pain relief. He is a long-time member of the Texas Pain Society and participates in new cutting edge therapy training so he can offer his patients the latest technology in advanced interventional pain management. With a multidisciplinary, comprehensive approach, his expertise in interventional spine and neuromodulation allows him to treat pain at the source, improving his patient's function and quality of life.

Dr. Fronk, his wife and their four children enjoy out-door trips, playing with their dogs and enjoying nature. An asset to the growing team of experts at PSA, Dr. Fronk lived in Peru for some time and speaks fluent Spanish.

Pain Specialists of America is an interventional pain management group with expert, double and triple-board-certified pain physicians. Many of our physician leaders have trained at the nation's most prestigious medical centers in the country, like Harvard Medical School and the Cleveland Clinic. We offer services at 15 convenient office locations in Texas along the I-35 corridor from Waco to San Antonio. Our providers and their care teams develop treatment plans from a host of multidisciplinary approaches and offer the latest advanced interventional options available. Our Individualized treatment programs are designed to improve quality of life, allowing patients to return to normal daily functions as quickly as possible.

Thank you for trusting us with your patient's care. We look forward to continuing our pain management partnership.

Pankaj Mehta, MD, DABA, DABPM
Clinical President

Bennjamin Fronk, MD, DABA
